REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Re claims 1 and 6; the magnetic transfer method of claim 1 and the magnetic transfer apparatus of claim 6 are allowable over the prior art of record, and in particular Miyata et al (US 6,611,388 B1), for teaching that the magnetic field intensity of the magnetic field in the direction opposite that of the transfer magnetic field applied in the track direction and across the entirety of the recording surface region of the slave medium is less than or equal to one half of the magnetic coercive force of the slave medium.

Re claim 12; the prior art of record, and in particular Ishida et al (US 6,347,016 B1), fails to teach or suggest a direct current magnetic field applied in the track direction of the plurality of slave mediums, which are in the stacked state, to concurrently initially magnetize the plurality of slave mediums.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Miyata et al (US 6,611,388 B1) teach magnetic transfer recording in which an initializing magnetic field in a single direction is used in preparing the slave medium for magnetic transfer.

Ishida et al (US 6,347,016 B1) teach having a master medium with an uneven pattern surface.

Bonyhard (US 5,991,104 A) teaches contact recording.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dan I Davidson whose telephone number is (703) 308-8535. The examiner can normally be reached on Monday-Friday 8:30-5:00.
